NOTES

For subspecies recorded in Britain see British List 8th Edition (June 2013), and BOURC reports published prior to the 8th Edition, in links below.

The following have been recorded, but not assigned to species:

- White-bellied Storm Petrel *Fregatta grallaria* or Black-bellied Storm Petrel *F. tropica*
- Cape Verde Storm Petrel *Oceanodroma jabejabe* or Madeiran Storm Petrel *O. castro* or Monteiro's Storm Petrel *O. monteiroi*
- Brown Skua *Stercorarius antarcticus* or South Polar Skua *S. maccormicki*
- Pale-legged Leaf Warbler *Phylloscopus tenellipes* or Sakhalin Leaf Warbler *Phylloscopus borealoides*

†/‡ Rare species (†) and subspecies (‡ - within the non-rare species highlighted) for which descriptions are required by the British Birds Rarities Committee (BBRC). For species and subspecies not on the British List but considered by BBRC see www.bbrc.org.uk.

¹ Extinct

IOC names are placed in italics when IOC and BOU vernacular names differ but because of different taxonomies it is not clear which IOC-recognised species has occurred in Britain. In cases where the BOU species relate to more than one IOC-recognised species that has occurred in Britain, all relevant IOC names are listed in the IOC column. This is not a comprehensive comparison of IOC and BOU taxonomies, but is included to avoid potential confusion about which taxa have occurred in Britain.

Nomenclature follows - Knox, A.G., Collinson, M., Helbig, A.J., Parkin, D.T. and Sangster, G. 2002. Taxonomic recommendations for British birds. *Ibis* **144**: 707-710 with updates as per published in BOURC-TSC reports (see links below).
